Region/Province/District	Oromia/West Arsi/ Wondo Genet
GPS Coordinates	Latitude:06 59.571 N Longitude:038 34.076 E
Altitude	1703 m
Total depth	18 m
Static level	12 m
Diameter of casing	17 mm
Casing material	PVC
Pump type	Afridev
Depth of cylinder	17 m
Well yield	30
No. of people served	500

## HYGIENE TEACHING

How was the hygiene training implemented? Disease transmission, Germs, Hand Washing-proper techniques and water saving methods, Proper care of the pump, Keeping the water clean, Good-bad hygiene behaviors, Clean Hands Clean Hearts

### Hygiene teaching

"Our community worker gathered the community for a health and hygiene lesson. We estimate about 60 beneficiaries were in attendance, representing over 30 families. Basic hygiene concepts were addressed and the community has the opportunity to ask questions. Posters and brochures demonstrating best practices were distributed to each family unit." - LWI team member

## CHRISTIAN WITNESS

Gospel	Before leaving the community the team established a partnership with the local church.
Proclaimer	No
Number of Bibles distributed	None
Anything else to share about Christian witness	"We were referred to this area by the local church. We worked in partnership with them to select the site and witness to the community. Several bible stories were also shared during the hygiene training." - LWI team member
